

ណែនាំអោយស្គាល់ពី Validation Control ក្នុង Java Script

I. ដូចម្តេចទៅដែលហៅថា Validation Control?

នៅក្នុង Java Script ការកំណត់នូវ Validation ទៅលើ Control Box សំខាន់ៗ របស់ Website គឺជាចំណុចមួយដែលសំខាន់ហើយមិនអាចអត់វាបាន។ Validation Control គឺសំដៅលើការ កំណត់នូវ ថាការបញ្ចូលទិន្នន័យក្នុង TextBox ឬ Control ណាមួយមានលក្ខណៈ ត្រឹមត្រូវទៅតាមតំរូវការរបស់ developer ឬទេ។ ខាងក្រោមនេះគឺជាការកំណត់លើ Validation ទៅ តាម Control box ដែលសំខាន់ៗរបស់ JavaScript ដូចជា៖

ឧទាហរណ៍ ១៖

```

<!DOCTYPE html>
<html>
<head>
<script>
function validateForm() {
    var fname = document.forms["myForm"]["fname"].value;
    var lname = document.forms["myForm"]["lname"].value;
    if (fname == "" || lname=="") {
        document.getElementById('dis').innerHTML="Please Input Value first...!";
        return false;
    }
}
</script>
</head>
<body>

<form name="myForm" action="/action_page.php"
onsubmit="return validateForm()" method="post">
First Name:<br/> <input type="text" name="fname">
<input type="submit" value="Submit"><br/>
Last Name:<br/> <input type="text" name="lname">
<input type="reset" value="Reset">
<p id="dis"></p>
</form>

</body>
</html>

```

លទ្ធផលទទួលបាន៖

First Name:

Last Name:

Please Input Value first...!

ឧទាហរណ៍ ២៖

```
<!DOCTYPE html>
<html>
<head>
<body>
<p style="background-color:yellow; font-size:20pt;" >Demo Validation Control JavaScript</p>
<form name="myForm" action="/action_page.php"
onsubmit="return validateForm()" method="post">
First Name:<br/> <input type="text" name="fname" required>
<input type="submit" value="Submit"><br/>
Last Name:<br/> <input type="text" name="lname" required>
<input type="reset" value="Reset">
<p id="dis"></p>
</form>

</body>
</html>
```

ណែនាំអោយស្គាល់ពី Build In Function ក្នុង Java Script

នៅក្នុង Java Script មាននូវ ប្រភេទ Function ដែលគេ build វាជាច្រើនសំរាប់ជំនួយអ្នកក្នុងការសរសេរកូដអោយប្រសើរជាងមុន។ Function ទាំងនោះមាននូវ មុខងារ និងតួនាទីទៅតាម បរិបទនៃការងាររបស់នាក់ៗ

I. Date Function

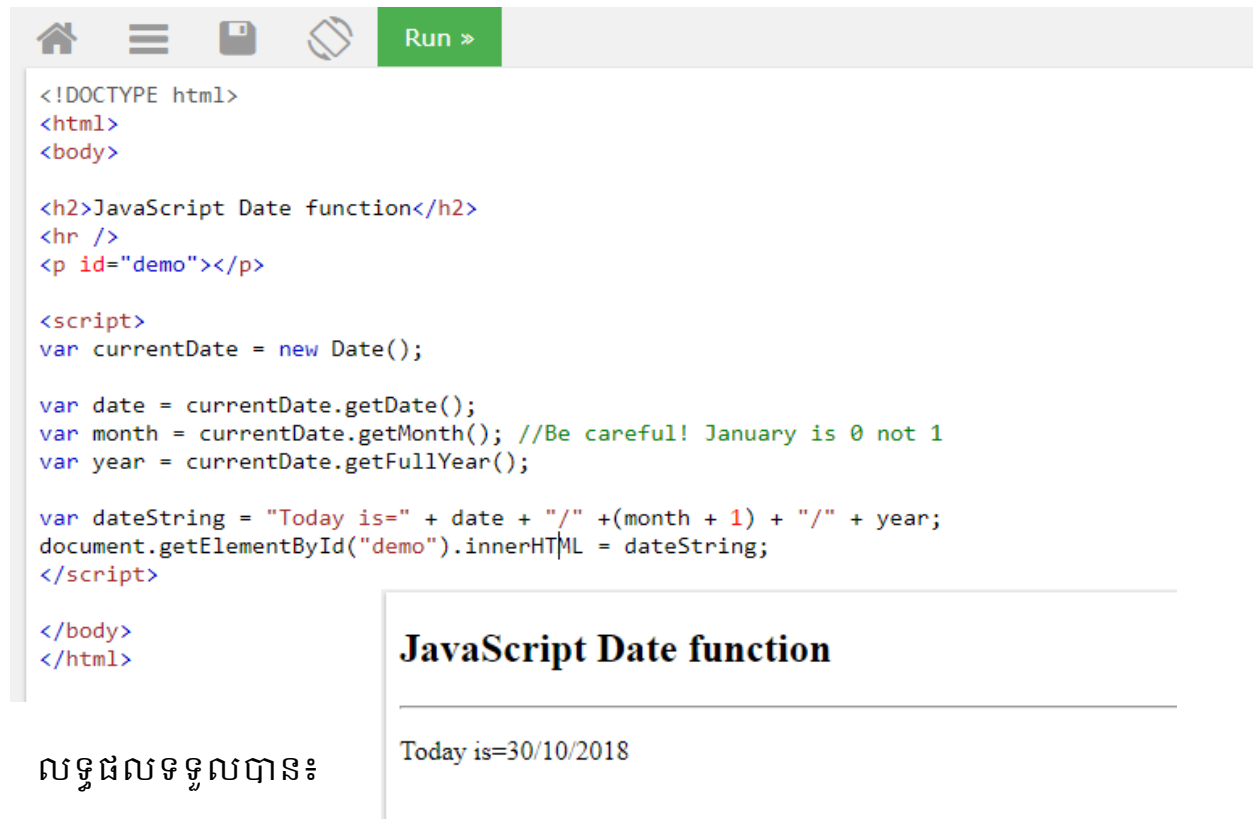

Date function គឺជាប្រភេទ Function ដែលសំរាប់ទាញយកពេលវេលាដូចជាថ្ងៃខែឆ្នាំ ឬ ម៉ោង នាទី និង Second ជាដើម។

ខាងក្រោមគឺជាប្រភេទ Function របស់ Date និង Time ៖

- ✓ `getFullYear()`: ទាញយក year ដែលមាន ៤ digit number (yyyy)
- ✓ `getMonth()`: ទាញយកខែពី(0-11)
- ✓ `getDate()`: ទាញយកថ្ងៃចាប់ពី (1-31)
- ✓ `getHours()`: ទាញយកម៉ោង (0-23)
- ✓ `getMinutes()`: ទាញយកនាទី (0-59)
- ✓ `getSeconds()`: ទាញយកវិនាទី (0-59)
- ✓ `getDay()`: ទាញយកថ្ងៃ (0-6)

ឧទាហរណ៍ ១៖

The screenshot shows a web browser window with a toolbar at the top containing icons for home, menu, save, and print, along with a green 'Run »' button. The main content area displays the output of a JavaScript script. The script, shown in a code editor on the left, defines a function to get the current date and format it as 'Today is=30/10/2018'. The output is displayed in a box on the right with the title 'JavaScript Date function'.

```
<!DOCTYPE html>
<html>
<body>

<h2>JavaScript Date function</h2>
<hr />
<p id="demo"></p>

<script>
var currentDate = new Date();

var date = currentDate.getDate();
var month = currentDate.getMonth(); //Be careful! January is 0 not 1
var year = currentDate.getFullYear();

var dateString = "Today is=" + date + "/" + (month + 1) + "/" + year;
document.getElementById("demo").innerHTML = dateString;
</script>

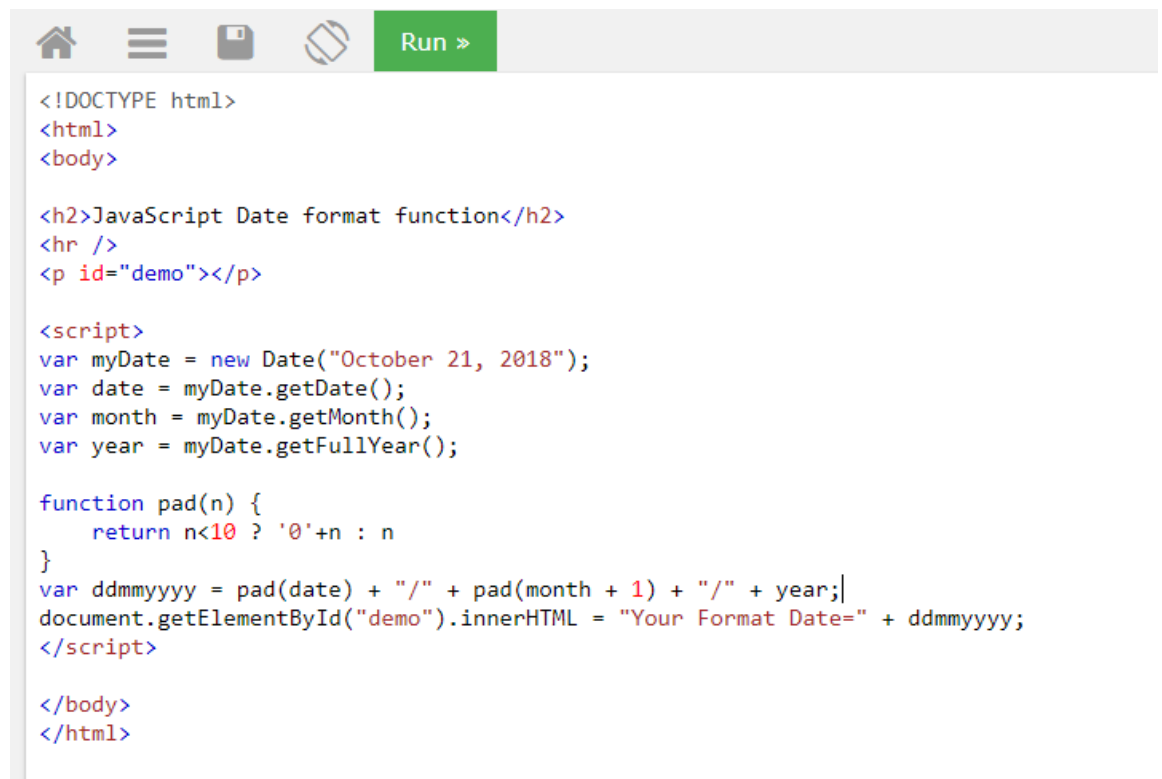

</body>
</html>
```

ឧទាហរណ៍ ៧៖

The screenshot shows a web browser window with a toolbar at the top containing icons for home, menu, save, and print, along with a green 'Run »' button. The main content area displays a JavaScript script within an HTML document. The script defines an array of YouTube video URLs and a function named 'openNext()' that updates the video source of an iframe and schedules the next video to play after a 30-second delay. Below the script, the text 'Display video with 1 Minute' is shown. A 'Click it' button is present, which triggers the script. The video player below the button shows a video titled 'Wake Me Up Before You Go-Go - ...' by the artist Tinashe, with a large red play button in the center. The video player interface includes a 'Watch later' button and a 'Share' button.

```
<!DOCTYPE html>
<html>
<body>

<h3> Display video with 1 Minute</h3>
<button onclick="openNext();">Click it</button><br/><br/>
<iframe id='the_iframe' width="500" height="200"></iframe>
<script>
